Isidor Isaac Rabi

Date of birth: 07/29/1898 | **Date of death:** 01/11/1988

Occupation or position: Physics

Community: [רימאנוב טשענא](#)

Isidor Isaac Rabi was born in Rymanów, Galicia, Austria-Hungary. He was a Polish-born American physicist and Nobel laureate, recognized in 1944 for his discovery of nuclear magnetic resonance, which is used in magnetic resonance imaging. He was also involved in the development of the cavity magnetron, which is used in microwave radar and microwave ovens.
