the organization has invested much work in collecting first-hand oral testimonies about Jewish life falicia and Bukovina. These interviews were conducted as part of our annual expeditions to Galicia lost of the interviews are in Russian or Ukrainian, with some offering an English translation. The therviews give firsthand description of various aspects of Jewish life before the Holocaust. It goes rithout saying that the generation capable of telling the story of Galician and Bukovinian Jewry is lowly disappearing, and we therefore see this project as a last opportunity to obtain first-hand information from these living testimonials to Jewish life in these regions.  We invite all descendants of Galicia and Bukovina who are interested in contributing to this important cause to contact us. Please click here    Appence:   Description   Description		
Talicia and Bukovina. These interviews were conducted as part of our annual expeditions to Galicia lost of the interviews are in Russian or Ukrainian, with some offering an English translation. The interviews give firsthand description of various aspects of Jewish life before the Holocaust. It goes without saying that the generation capable of telling the story of Galician and Bukovinian Jewry is lowly disappearing, and we therefore see this project as a last opportunity to obtain first-hand information from these living testimonials to Jewish life in these regions.  We invite all descendants of Galicia and Bukovina who are interested in contributing to this important cause to contact us. Please click here	nterviev	rs
mportant cause to contact us. Please click <u>here</u>	Salicia and Most of the Interviews g Without say Howly disap	Bukovina. These interviews were conducted as part of our annual expeditions to Galicia interviews are in Russian or Ukrainian, with some offering an English translation. The live firsthand description of various aspects of Jewish life before the Holocaust. It goes ng that the generation capable of telling the story of Galician and Bukovinian Jewry is pearing, and we therefore see this project as a last opportunity to obtain first-hand
